Quality. Simplicity. Speed.

Zero False-Positives SLA

Money-Back Guarantee for a single false positive

AI-Enhanced Testing

Deep Learning AI engine detects more vulnerabilities

24/7 Expert Assistance

Vulnerability remediation help for your software developers

Top-Notch Reports

Zero noise, working exploits, risk-based scoring

DevSecOps Native

Full automation of testing and CI/CD pipeline integrations

1 Just upload your app and select scan mode

2 Run instant or scheduled security scanning

3 Get help with patching and re-scan to validate the fix

Centralized Scan Management and Multiuser Dashboard

CI/CD and DevSecOps Native

ImmuniWeb® Neuron Mobile Deliverables

Premium Mobile Application Security Scanning

Mobile Security Scanning

- ✓ Full Scan Customization
- ✓ Authenticated Scans (SSO/MFA)
- ✓ Mobile Security Scanning:
 - SAST Scanning
 - DAST Scanning
 - Software Composition Analysis (SCA)
 - OWASP Mobile Top 10 Scanning
 - OWASP MASVS Level 1 Testing
 - Mobile App Privacy Analysis
 - SSL/TLS Encryption Testing
- ✓ Endpoints & APIs Privacy Review
- ✓ Mobile App Compliance Review
- ✓ Open Source Software Security Ratings

Reporting

- ✓ Zero False-Positives SLA **Money back**
- ✓ Risk-Based Prioritization of Findings
- ✓ Simple Instructions to Reproduce Findings
- ✓ Web, PDF, JSON, XML and CSV Reports
- ✓ Friendly Remediation Guidelines
- ✓ Screenshots of Security Findings
- ✓ Consolidated View of All Scans
- ✓ CVE and CWE Mapping
- ✓ CVSSv4 Scoring

Remediation

- ✓ Patch Verification Scans
- ✓ Turnkey CI/CD Automation
- ✓ Seamless DevSecOps Integration
- ✓ Access to Our Security Analysts
- ✓ RBAC Scan Management Dashboard
- ✓ Unlimited Dashboard Users
- ✓ Simple Scan Scheduling
- ✓ Email Alerts

Frequently Asked Questions

Q

Do you support authenticated scanning?

A

Yes, we do support authenticated scanning of mobile applications.

Q

Can I integrate Neuron Mobile into my CI/CD pipeline?

A

Yes, you can integrate Neuron Mobile with majority of on-premise and cloud-based CI/CD pipelines. You can also use our API to automatically manage scans.

Q

How often can I scan my web applications?

A

Neuron Mobile is a scan-based service, where you purchase a certain number of scans. The scans can be performed in quick succession without limitations.

Q

How are you different from other mobile security scanners?

A

ImmuniWeb® Neuron Mobile leverages our award-winning Machine Learning technology to intelligently automate sophisticated tests and checks that usually require human labor. Eventually, you may expect more vulnerabilities to be detected compared to traditional mobile security scanners, as well as more sophisticated vulnerabilities to be found.

Q

Can ImmuniWeb Neuron Mobile replace penetration testing?

A

No, the current state of AI and Machine Learning technologies is still far from being capable to fully replace human intelligence. For penetration testing needs, we have a dedicated offering that includes [expert manual testing](#). Of note, many laws and regulations require mandatory penetration testing that you cannot substitute with vulnerability scanning.

Q

Where will my data reside?

A

By default, your data resides on ImmuniWeb's servers in Switzerland and Canada: both countries have an adequacy decision by [the European Commission \(EC\) for the EU GDPR](#) compliance purposes. Upon request, your data can be stored in another jurisdiction of your preference for an extra cost. Your data can be securely deleted at any time upon your request. No public cloud providers are used to store your data.

Q

Do you offer special pricing for government, academia and non-profit organizations?

A

Yes, we do offer advantageous pricing for government, academia and non-profit organizations. Please reach out to our [sales team](#) to see whether your organization qualifies.

Why Choosing ImmuniWeb® AI Platform

Because You Deserve the Very Best

Reduce Complexity

All-in-one platform for 20 synergized use cases

Chief Architect & CEO

Trusted by 1,000+ Global Customers

“

We used ImmuniWeb for some of our products and we have been highly satisfied from the provided service as valid vulnerabilities with no false positives were identified. The report ImmuniWeb delivered to us was quite clear in terms of the classifications and the description of the identified vulnerabilities, linking to the corresponding CVE and the fix recommendations. We recommend ImmuniWeb to other vendors to make their web products secure

“

*The report was very detailed and clearly explained the risk at executive level, a great assistance in taking the report to senior management.
I would have no hesitation in recommending ImmuniWeb.*

“

We believe ImmuniWeb platform would definitely address the common weaknesses seen in manual assessments. The AI-assisted platform not only automates the assessments, but also, executes them in a continuous, consistent and reliable fashion. Admittedly, the platform would definitely add quick wins and great ROI to its customers on their investment.

“

ImmuniWeb is an efficient and very easy-to-use solution that combines automatic and human tests. The results are complete, straightforward and easy to understand. It's an essential tool for the development of the new digital activities
